Neumer gided Sam Lobley in securing from the Equitable 100 loans of \$27,000 each on a policy which was held by the company as collateral for another loan. The young man was a clerk in the bond department and had access to the policies held as collateral. He was able to change the books so that the transactions with Lobley appeared to be perfectly legal. The conspiricy was unearthed by accident. Neumer jurned State's evidence, and Lobley is serving time in Sing Sing.

COTTON WEAK ON FAVORABLE WEATHER

The undertone of the local cotton market was weak to-day and prices wire houses sold, and the pit traders felt that the situation was not quite so strong. Room longs consequently showed a disposition to hedge, while leading bears renewed their attacks on the market with considerable vigor, and quotations after the call declined 1 to 3 points further.

The general trade was not very broad. The South bought a little cotton, but on every point of two rally certain interests let go a lot of the staple, the distant with the staple, the country of the staple, the staple, the country of the staple, the country of the staple, the staple,

In discussing the general proposition to have the present extra sussain pass a bill to limit the investments of life insurance companies and prevent the use of insurance funds in stock-jobbing schemes, the Governor said:

"It is practically the universal opinion that great evils exist with regard to the conduct of life insurance companies. It is the universal opinion that these ovils should be corrected, and at as early a date as possible. It is one thing to generalize as to the evils and another thing to remedy them. It is one thing to say that this or that should be done, but another thing to do it. I am not satisfied that there is any one at the present time who can frame a statute that will right the wrongs now existing in insurance fields. That is a matter that requires study of the closest sort."

Hyannis, Mass., May 12, 1900.

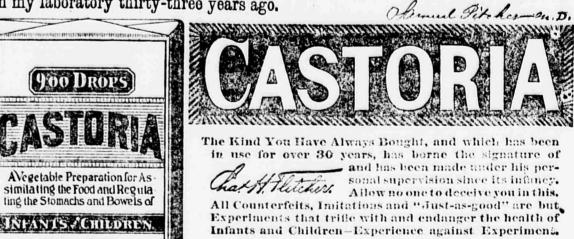

CHAS. H. FLETCHER, New York City. Dear Mr. Fletcher: I wish to congratulate you on your numerous victories over counterfeiters and imitators of Castoria, and trust the time is not far

distant when these inferior and dangerous mixtures will be entirely suppressed.

You are right when you say in your advertisements that it is "Experience against Experiment."

I feel it to be an outrage, and an imposition upon the parents of little children that my name should be associated with imitations of Castoria, dangerous to the health and life of these little ones who too often fight their battles for life in vain.

Let me again commend you for the high standard you have maintained in the preparation of my prescription, and I confidently believe it is due to this scrupulous integrity you are indebted for the wonderful sale of Castoria to-day, and the steady growth it has had since I gave you the details of its manufacture in my laboratory thirty-three years ago.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syraps. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhora and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea-The Mother's Friend.
